

STORMFLOD
D. 2/1. 2019

The map displays the Østfold region of Norway, with landmasses in light beige and water in a blue-green color with a wavy texture. Red outlines indicate the extent of storm surge flooding. The surge is most prominent along the southern and western coasts of the main landmass, as well as around several islands. Labels with leader lines point to specific locations: Lillebæltbroen, Bogense, Kerteminde, Kruså, Karrebæksminde, and Rødvig. The title 'STORMFLOD' is underlined, and the date 'D. 2/1. 2019' is also underlined.

LILLEBÆLTBROEN

BOGENSE

KERTEMINDE

KARREBÆKSMINDE

RØDVIG

KRUSÅ
